

**30 YEARS**

**DOUBLE WARRANTY + NON-DEGRESSIVE**

**ON THE WATERTIGHTNESS OF THE COVERSYS ALUZINC® PRODUCTS  
+ ON THE DURABLE ADHERENCE OF THE COVERCOAT© FINISHING**

In case of watertightness defects, caused by perforation of the Aluzinc® steel due to atmospheric corrosion, or of a noticeable disappearing of the Covercoat© finishing, Coverite will supply the same or similar products originally dispatched to the clients to replace only the affected Coversys Aluzinc® steel tiles and accessories.

**The double guarantee is applicable only if the following conditions are met:**

(1) The period of validity of the guarantee starts on the date of the issued invoice mentioned above. It applies to the products manufactured by Coverite in Aluzinc® steel and covered with Covercoat© finishing. The guarantee is applicable only if all payments of the relevant invoices have been made to Coverite.

(2) Any reference to the guarantee can be made only within 2 months after noticing the defect on the water tightness or on the adherence of the finishing. The claim supported with a copy of the invoices referring to the defect Coversys product/s needs to be sent by registered mail with acknowledgement of receipt to Coverite. The claim will be taken into consideration only if it is concerning a serious hidden defect of the product and not a problem due to the transport, storing conditions, improper installation or a lack of maintenance.

(3) This guarantee is only applicable if the tiles and/or the accessories have been used and installed strictly in accordance with the manufacturer's technical and installation instructions. The guarantee is not valid if the roof has been treated or repaired using alternative methods without a written authorisation from Coverite.

(4) The guarantee is not applicable in cases of direct or indirect defects due to natural catastrophes, acts of God or aggressive or abnormal pollution conditions or drastic sea environment. The guarantee is not applicable on parts where retouching has made on site. The guarantee is not applicable if the fixings have not been supplied/recommended by Coverite, or if inadequate cleaning has been made or if degradation is a result of use of copper, lead or acid sealing products in the vicinity of the Coversys products. Indirect consequences such as loss of earnings are not covered. This guarantee is limited to replacing affected tiles and accessories and not responsible for the cost of deconstructing or reconstructing the roofing to put it right.

(5) Coverite reserves the right to reclaim any or all of the defect products for detailed analysis by their technical department in which case the ownership of these reclaimed products will revert to Coverite.

(6) These terms and conditions of warranty shall be governed by and construed in accordance with the laws of Belgium and the parties hereto irrevocably submit to the exclusive jurisdiction of the Courts of Namur for the determination of all disputes or claims which may arise out of or in connection with this warranty.
